

A crown of glory—is a beautiful head of hair. An Australian lady now in London writes under date Jan. 28, 1907:

"Ayer's Hair Vigor has done my hair a world of good. Thanks to it, my hair is now thick, glossy, and soft, and when plaited is 55 inches long. Ayer's Hair Vigor ought to be used by every woman who takes pride in her appearance."

You also may have such a crown of glory if you will follow the example of this lady and use

Ayer's Hair Vigor

It will remove all dandruff and make your hair rich and abundant.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

Galvanum

is a paint that will adhere permanently to galvanized iron. Made in stone drab and dark lead colors. Any pure lineal paint can be used over galvanum for a finishing coat where the galvanum color is not suitable. It is especially valuable in this climate.

SPORTS

THE UNIVERSITY FOOTBALL GAMES

SPORT NOTES

YALE AND PRINCETON TO MEET NEXT SATURDAY—OTHER BIG GAMES SCHEDULED

The first big football game of the season will be played on Saturday next between Yale and Princeton. Princeton has developed a very good team this year, and the opinions of the Eastern papers seem to favor the sons of "Old Nassau." Yale has a very good team considering that she has lost a number of her best players by graduation, but the Princeton team has made a better showing this year than her great rival.

The 23rd of November, the annual game between Yale and Harvard will be played, and the odds seem to be in favor of the sons of "Old Eli." Harvard has a very good team this year, but it is not as strong as the Yale eleven. For some reason or another Yale seems to be the best of the football teams, and the other college teams do not seem to be as lucky as the men from New Haven. These two games as well as the Army and Navy games take up the stage in football every year, and here in Honolulu the graduates of the three big colleges look forward every year to the annual games.

The Harvard-Yale game will be played at Cambridge this year, while the Princeton-Yale game will be played at Princeton. The Army and Navy game will be played on the 30th at Philadelphia. Another big game will be the annual game between Pennsylvania and Cornell which will be played at Philadelphia on the 23rd.

BAND CONCERT

A public band concert will be given this evening at 7:30, at Aala Park, the program being here given:

PART I.
March, "The Magnet".....Losey
Overture, "The Autumn Queen".....Bigge

PART II.
Vocal, Hawaiian Songs, Ar. by Berger
Selection, "The Tattooed Man".....Herbert
Grand March, "On Parade".....Kappey
Quadrille, "In Mask".....Faust
"Star Spangled Banner."

In the hot canebreak of Louisiana and at the North Pole the bear is equally at home. A fitting symbol for the All-embracing Mind.—New York Evening Post.

WASHINGTON WANTS OUR EARTHQUAKE RECORDS

CONGRESS MAY BE ASKED TO FORM A SPECIAL SEISMOGRAPHIC BUREAU TO RECEIVE AND STUDY REPORTS BY EARTHQUAKE INSTRUMENTS ALL OVER THE WORLD—SECOND SHOCK AFTER OCTOBER 16TH BIG QUAKE.

WASHINGTON, October 17.—In the silent but awe-inspiring language of the earthquake, as recorded at the United States weather bureau out on 24th street, the old earth was again shaken somewhere this morning. This latest tremble was comparatively slight in character as compared with the big quake of yesterday, and may have been an aftereffect of that disturbance, according to Prof. C. F. Marvin, the seismic specialist at the weather bureau. Its time of duration was from 6:33 to 6:40 o'clock this morning.

The necessity for an interchange of seismographic data and reports between the United States and foreign countries was emphasized today by Prof. Marvin, and it was said Congress will be asked at its next session to authorize the extension of the work, so that this government may at least get a reproduction of the records from the seismographs located on the Isle of Wight, at Tokio and several other places in Japan, at Strasburg, Potsdam, Lailbach, Austria; Goettingen, several points in Russia, Harpoot, Turkey; Asia Minor, in Australia, the Samoan Islands and from the coast and geodetic survey's stations at Honolulu and in the Philippines.

There is said to be a strong feeling in scientific circles in favor of requesting Congress to create a distinctive seismograph bureau.

At the weather bureau the precise beginning of yesterday's quake can not be made out, but it was noticed, before the strong motion began, that an earthquake was occurring, and the record was adjusted to the middle portion of the sheet. Even with this precaution the motion of the instrument

was so great as to carry the record lever far beyond the margin of the sheet, so that this disturbance was evidently of considerable violence. The strong part of the motion began at 9:14 a. m., but its duration was relatively short and subsided at about 9:20 a. m., seventy-fifth meridian time.

The Toronto observatory estimates the distance of the quake at 3,000 miles at a point presumably south. Its officials report the matter as an extraordinary earthquake shock, the extreme tremors of which exceeded during three minutes the scale limit of the instrument. The preliminary tremors were noted at 9:02 a. m., the large waves at 9:12 to 9:15, and the disturbance continued until 10:45.

The seismograph at the coast and geodetic survey magnetic observatory at Cheltenham, Md., showed that the vibrations began at 8:59:46 a. m., eastern standard time, and continued for about two hours, the maximum being reached at from 9:14 to 9:20. Peculiarly, the college officials at Amherst, Mass., report that the seismograph showed no record yesterday of any earth shocks.

A dispatch received last night from London said: "The observatory on the Isle of Wight recorded a severe earthquake today, beginning at 2:15 p. m. and lasting more than four hours. The distance of the disturbance is placed at 5,000 miles."

The observatory at Lailbach, Austria, also recorded an earthquake at practically the same time, lasting for two hours and a half and at a distance of 6,250 miles.

LOCAL BRANCH OF THE RED CROSS

OFFICERS ELECTED FOR THE COMING YEAR—JUDGE DOLE IS PRESIDENT.

The Honolulu branch of the National Red Cross Society held its first annual meeting yesterday afternoon in the office of Judge S. B. Dole in the Judiciary Building. There have been other meetings of this branch of the society in which an organization was effected but yesterday's meeting was the first regular one, and at it officers for the year were elected as follows: President, S. B. Dole; vice President, Mrs. B. F. Dillingham; secretary, Mrs. W. W. Hall; treasurer, C. H. Cooke; auditor, J. R. Galt; executive committee, Dr. Brinckerhoff, Mrs. C. B. Cooper, Mrs. Walbridge, H. M. Von Holt, and A. F. Griffiths.

A committee on finance was appointed by the President consisting of C. H. Cooke, W. E. Brown and W. W. Hall. The draft of by laws reported by a committee at the last meeting was adopted with a few minor amendments.

In order that aliens may be permitted to belong to the local branch, a letter was ordered addressed to the National organization, asking that the constitution be modified so as to permit others than citizens of the United States to be members of the Honolulu branch.

BUFORD COMING.

SAN FRANCISCO, November 5.—The transport Buford sailed yesterday for Honolulu.

WILL HAVE TWO NEW STEAMERS

SCHWERIN GOES TO NEW YORK TO MAKE ARRANGEMENTS FOR CONSTRUCTION.

SAN FRANCISCO, October 27.—R. P. Schwerin, general manager of the Pacific Mail Steamship Company, with his assistant manager, left San Francisco for New York yesterday. While in New York Schwerin will complete arrangements for the building of two new steamers for the trade between San Francisco and Portland. Some time ago Harriman announced his intention of putting two new up-to-date steamers on this route to cope with the lucrative trade which was offering.

The drawings and designs for both steamers are completed. They provide for all modern improvements. Both steamers will be provided with wireless telegraphic apparatus and will be finished within twelve months. In addition to arranging for the building of these two steamers it is understood that Schwerin will enter into negotiations with a view of revolutionizing the effete service provided by the company on the Panama route. It is said to be the intention of the company at all hazards to prevent any excuse for the Government arranging for another Central American service because of the unsatisfactory and irregular service given by the Pacific Mail Company. It is likely that Manager Schwerin will be away for some weeks.

THE FINAL ORDERS FOR THE FLEET

BATTLESHIPS WILL SAIL FOR THE PACIFIC ON SIXTEENTH OF DECEMBER.

WASHINGTON, October 26.—"No such relation exists between America and Japan as would make it improper to send the American fleet into the Pacific. If there were the relations between America and Great Britain, and the relations between America and France, which are the same, would forbid the maintenance of the battleship fleet in the Atlantic ocean."

This was the reply returned by Secretary Root to the direct question as to whether Japan had entered any protest against the dispatch of Admiral Evans' fleet to the Pacific next December. The statement was made at the conclusion of a long conference between Secretary Root and Ambassador Aoki of Japan at the State Department today.

Secretary Metcalf today announced that it was definitely settled that the Atlantic fleet will leave Hampton Roads on December 16th for its cruise to the Pacific Coast. This announcement followed a conference held at the White House, to which the President summoned Secretary Metcalf, Rear-Admiral Evans, who will command the fleet on its cruise to the Pacific, and Read-Admiral Brownson, chief of the Bureau of Navigation of the Navy Department. The conference was called to continue more in detail the Cabinet meeting discussion of naval affairs yesterday. The discussion related particularly to details of the Atlantic fleet's cruise to the Pacific.

It is understood that matters were in such shape that the President was thoroughly informed on all important items in the itinerary. Admiral Evans, who has been confined to his apartments on account of an indisposition, looked and declared himself to be much improved in health. The Bureau of Insular Affairs today received a cablegram from General Smith of the Philippines, asking that the Atlantic fleet be permitted to visit Manila during the week beginning February 10th in order to attend the pre-Lenten festivities. The fact that the fleet will not have arrived in Pacific waters by that time precluded this.

Secretary Metcalf stated that the question of allowing newspaper correspondents to accompany the fleet was discussed, and the conclusion reached not to allow newspaper men on board, but that officers of the fleet would be designated to send such news as might be thought desirable to make public.

WORTH THE PRICE.

Every month it costs more to live, according to the statistics of the esteemed newspapers, but it's worth it, as you will see when you come to think matters over.—Newark News.
